

SearchQueryBuilderInterface

```
graph BT; SearchQueryBuilder[SearchQueryBuilder] --> SearchQueryBuilderInterface[SearchQueryBuilderInterface];
```

The diagram illustrates a class hierarchy. At the top is a gray rectangular box labeled 'SearchQueryBuilderInterface'. Below it is a white rectangular box labeled 'SearchQueryBuilder'. A blue arrow points from the bottom of the 'SearchQueryBuilder' box up to the bottom center of the 'SearchQueryBuilderInterface' box, indicating that 'SearchQueryBuilder' implements or inherits from 'SearchQueryBuilderInterface'.
